DRAFTS PERSON

ATOM-JET INDUSTRIES is a custom machining and advanced manufacturing company in Brandon, Manitoba. Atom-Jet has been in business since 1962. Atom-Jet Industries has a reputation for producing quality products and recently celebrated its 60th year in business.

We are seeking a qualified individual to join our Machine Shop team.

Benefits

Atom-Jet recognizes that the people within our team are our most valuable asset, because of this, Atom-Jet provides its employees with:

1. A comprehensive benefit package, at no cost to our employees.
2. Pension matching
3. Competitive salaries and wages
4. Work-life balance
5. Regular social events

Job Summary

This position is responsible for working with the Atom-Jet team to maintain drawings, bills of materials (BOM), and other critical production information. The role includes updating existing drawings and BOMs and collaborating with the team to develop new products and improve production processes. In addition, this position will provide support to various other functions in the Machining division.

Requirements

Experience – Previous mechanical or production experience would be an asset but is not required. New graduates and experienced individuals are encouraged to apply for this position.

Education – Formal design training through a college, university or other accredited program is required for this position.

Skills – Applicant must be proficient in Inventor, AutoCAD, and Microsoft Office.

Attributes – Looking for a self-motivated individual with a positive attitude that works well with others and is willing to learn.

Please forward resumes via email to hr@atomjet.com attention; **Drafts Person**
