QUALITY ASSURANCE TECHNICIAN

ATOM-JET INDUSTRIES is a custom machining and advanced manufacturing company in Brandon, Manitoba. Atom-Jet has been in business since 1962.

The Atom-Jet Group has a reputation for producing quality products and recently celebrated its 60th year in business.

We are seeking a qualified individual to join our Quality department.

Benefits

Atom-Jet recognizes that the people within our team are our most valuable asset, and because of this, all employees are provided with:

1. A comprehensive benefits package at no cost to our employees.
2. Pension matching
3. Competitive salaries and wages
4. Work-life balance
5. Regular social events

Job Summary

This role is primarily responsible for completing part inspections and necessary documentation. This position is also responsible for quality-related initiatives and supporting the company's ISO 9001-2015 program.

Job responsibilities and duties:

- First-off and final inspections.
- Report, document, and communicate non-conformances.
- Inspection of raw material upon arrival.
- Calibrate tools and update the calibration management software.

Essential knowledge, skills, and abilities:

- Proficient in using precision measuring tools, including but not limited to calipers, micrometers, and CMM equipment.
- Mechanical drawing interpretation skills, geometric dimensioning, and tolerancing.
- Working knowledge of Microsoft Office.
- Strong analytical and problem-solving skills.
