## DRAFTS PERSON

**ATOM-JET INDUSTRIES** is a custom machining and advanced manufacturing company in Brandon, Manitoba. Atom-Jet has been in business since 1962. Atom-Jet Industries has a reputation for producing quality products and recently celebrated its 60<sup>th</sup> year in business.

We are seeking a qualified individual to join our Machine Shop team.

### Benefits

Atom-Jet recognizes that the people within our team are our most valuable asset, because of this, Atom-Jet provides its employees with:

1. A comprehensive benefit package, at no cost to our employees.
2. Pension matching
3. Competitive salaries and wages
4. Work-life balance
5. Regular social events

### Job Summary

This position is responsible for working with the Atom-Jet team to maintain drawings, bills of materials (BOM), and other critical production information. Duties include updating existing drawings, collaborating with the team to develop new products, and improving production processes. This position will also provide support to various other functions in the Machining division, including Quality Control.

### Requirements

**Experience** – Previous mechanical or production experience would be an asset, but is not required. New graduates and experienced individuals are encouraged to apply for this position.

**Education** – Formal design training through a college, university, or other accredited program is required for this position.

**Skills** – Applicant must be proficient in Inventor, AutoCAD, and Microsoft Office. Applicant must also be able to measure and reverse engineer production parts.

**Attributes** – Looking for a self-motivated individual with a positive attitude who works well with others and is willing to learn.

Please forward resumes via email to [hr@atomjet.com](mailto:hr@atomjet.com) attention: **Drafts Person**
